

Paula Marchman, MA, LPC, is the Managing Director of Family Life Ministry. Paula has always loved learning and helping others. She loved learning about all of God's creation and the world around her from the time she was a little girl. Her first degree was a BS in Biology/Chemistry from Georgia State University and then she taught high school students and loved it!! Life grew and she married Michael (blessed memory) and they have 3 children who now have children of their own, and she loves being Yia-Yia (grandmother)! At the age of 50, Paula felt God calling her to go back to school to help other Christian families who were hurting. That was scary but she enjoyed the process and received her Master's degree in Professional Counseling. She now practices Christian Psychotherapy in a private Counseling Office in Atlanta, Georgia. God also brought a wonderful husband Thomas into her life while she was in graduate school and they share our Orthodox faith and 8 grandchildren between the two of them. Paula loves being creative and initiating new projects especially those like WOVEN!! She is thankful for all the blessings (joyful ones and those that are struggles) in her life.
